

STEVIE TODD

Keyboards & Vocals

Stevie Todd is a true music professional. Born in 1956, Stevie has been performing professionally since 1974 and has played with a marquee of artists honing his skills at countless venues at home and abroad. Equally adept in the studio, he has contributed to many recording projects earning his first gold record for Sue Medley's self titled 1989 debut CD.

Stevie's versatility is astounding. From smoky solo piano in an upscale English Bay lounge, to rollicking country keys at the Merritt Mountain festival to jazzy jump and swing on stage with the Big Band Trio or just wowing a local pub with some good old fashioned rock 'n roll, he can play it all.

Long a mainstay of Vancouver's recording and performing community, Stevie has made Vernon his home since 2002, and he is a very welcome addition to the Okanagan music scene.

Currently in the studio working on his latest solo CD as well as producing commercial projects for a slate of clients, Stevie still finds time for his first love: live performance. Be sure to stake out a spot on the dance floor, for his infectious stylings and sheer energy are sure to enliven audiences of all ages and any size.
